*Description:* 2D Rocket League is an epic retro-style sports arcade game where to players can battle it out for the title of ultimate 2D Rocket League Champion. Taking place in a post-apocalyptic world where Aliens have tried to take over the earth, there is only one person who can save humanity. You!

### *Features:*

Awesome gameplay with amazing music!

Fun for the whole family!

Up to 2 players!

Endless hours of fun!

*History:* Developed by Spring quarter's ECS 189L for a group project, this team put love and care into the development of their game in a short amount of time. This is the first collaborative project between these developers.
